Pro-Motion CD-20

auto motion

displays inc

- Raise your vehicle 25 feet in the air.
- Rotate 2 ¼ revolutions per minute.
- Any vehicle weighing up to 10,000 lbs.
- Completely Portable.
- Set up takes less than 30 minutes.
- The only power requirements are a 20 amp / 120V outlet.

“Rise Above Your Competition”

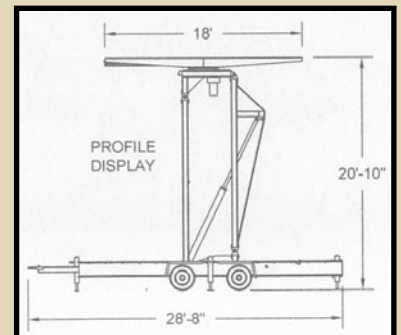

Fully Certified by a Nationally Accredited Structural Engineering Firm to withstand Extreme Wind Loads and Excessive Earthquake Conditions.

Auto Motion Displays, Inc. is a new and exciting company utilizing proven technologies most often found in the Amusement Park Industry. By adding a different twist to this technology, we created a new market within the business of Advertising & Promotion.

Our Portable Elevating Vehicle Carousels (**Pro-Motion CD-20**) are designed to provide Dealerships with a professional, yet attention-grabbing product that fills the void of how to attract new qualified buyers.

The **Pro-Motion CD-20** has Customized Interchangeable 'Banner-Style' Graphics Packages available to integrate your Dealership's Name, Logo and Affiliations, thus complementing the appearance of every **Pro-Motion CD-20** to each Dealership's Requirements or Particular Sales Promotions.
